

Repeat of Dragon Cement Plant Tour

In August, Dragon Products partnered with the Thomaston Historical Society to offer tours of the plant. These tours sold out very quickly. The event was so well received that Dragon agreed to offer two tours again on October 4th at 10 am and 1 pm. While most slots are already filled by those on the waiting list from the August tours, there are eight spaces open, mostly for the 1 pm tour.

Each tour lasts about 2 hours. At the end of the tour, there will be a chance to ask questions of managers in the quiet of a conference room where refreshments will be served by the historical society. The cost is \$30, discounted to \$25 for members of the Thomaston Historical Society. If you are thinking about signing up for a tour, keep in mind that there will be a lot of walking and climbing of stairs. To check if there are still openings and to reserve a spot email info@thomastonhistoricalsociety.com or call Susan Devlin at 354-4121 soon. Once you know you have a slot, you can confirm by sending a check to Thomaston Historical Society, PO Box 384, Thomaston, ME 04861. Please note that the payment is for the Dragon tour.
